

# sage Accountant Cloud

Sage Accountant Cloud is the only next-generation connected, comprehensive and collaborative platform for progressive accountants.

## How Sage Accountant Cloud delivers value

Run your practice and serve your clients through one platform

Reduce admin and maximize productivity

Get powerful insights when you need them

Make the platform your own and work the way you want to

## Why choose Sage Accountant Cloud?

### **Get the data you need when in or out of the office.**

Access important practice and client information wherever you are.

### **Make faster decisions based on insight.**

Quickly identify what to focus on with a unified client list and reliable, timely data.

### **Access one single source of information.**

No need to switch between multiple disconnected solutions.

### **Reduce work hours, errors, and overhead.**

Allow smart automation and machine learning to perform repetitive actions and low-value tasks on your behalf.

### **Simplify client management.**

Manage your clients with ease, regardless of which Sage cloud accounting solution they are using.

### **Work better, together.**

Improve communication, collaboration and coordination across your practice and with your clients.

### **Offer more to your clients.**

Deliver responsive service based on up-to-date, quickly accessible information.

### **Shape the solution to your practice.**

Select what you need; the platform can grow with you. Customise with other applications available through Sage Marketplace and the Salesforce App Exchange.

## What's included in Sage Accountant Cloud?

**Sage Practice Cloud:** Seamlessly brings together the core solutions that you need to run a highly efficient practice and provide clients with exceptional service.

**Sage Match:** Helps you market your practice and attract new clients, connecting you directly with businesses looking for someone with your skills and expertise.

## What applications will be available as part of Sage Practice Cloud?

**Client Manager:** Easily manage all your clients who are using Sage cloud accounting solutions.

**Practice Manager:** Manage your practice's work-flow and resources in the moment to ensure maximum productivity.

**Sage Live:** Unleash the power to grow while minimizing the complexities of scale with a powerful business management solution.
